EXPERIENCE

Java Full Stack Developer Intern, Doctosmart Enterprises

04/2024 - 07/2024

- Refined and evaluated features for Java-based applications, collaborating closely with senior developers.
- Expanded expertise in Spring Security and applied JWT-based authentication and authorization for Angular applications.
- Coordinated closely with the development team to adhere to project timelines and deliverables, ensuring alignment with business requirements.

PROJECTS

eCommerce Website

- Architected a scalable and maintainable back-end for Ecommerce Website using Java Spring Boot.
- Optimized database interactions with Hibernate ORM and MySQL for seamless data management.
- Led front-end development using Angular, creating a user-friendly experience for online shoppers.
- Delivered a full-stack e-commerce website (Big Mart) to facilitate online transactions.

Employee Management System

- Formulated and developed a robust system using Spring Boot, Angular, and MySQL.
- Administered Create, Read, Update, and Delete functionalities for efficient employee data management.
- Integrated Jasper Reports for generating comprehensive employee data reports.
- Automated employee data management tasks, boosting efficiency and reducing manual workload.

Library Management System

- Engineered and implemented a comprehensive system for the efficient handling of books, users, and library operations, ensuring seamless integration and functionality across all modules.
- Applied a multi-tier architecture to achieve optimal performance, leveraging Spring Boot (backend), Angular (frontend), and MySQL (database), resulting in enhanced scalability and maintainability.
- Optimized library tasks like book borrowing, user management, and inventory tracking to improve efficiency and reduce manual effort.

CERTIFICATIONS

Java Full Stack Development - Edubridge, Capgemini

10/2023 - 03/2024

Java Data Structures and Algorithm - Udemy

07/2024

TECHNICAL SKILLS

Experience in Application Development, Java Development, and Full Stack Web Development.

- Programming Languages: **Java, JavaScript, TypeScript, Basic Python**
- Web Technologies: **HTML, CSS, Tailwind CSS, Basic ReactJS**
- Databases: **SQL, MySQL, PostgreSQL, MongoDB**
- Frameworks: **Hibernate, Spring Boot, Swing, Angular**

EDUCATION

Jain University, Bangalore

08/2019 - 09/2023

Bachelor of Technology in Computer Science

- Specialization in Artificial Intelligence.

MES Raja Residential School, Kozhikode - 12th

03/2019

International Indian School Dammam, KSA - 10th

03/2017
